LEO SURGICAL COMPANY
ISO : 13485:2016 | SSI | MSME | CE CERTIFIED

Serving the Humanity Since 1969

Leo Surgical Company was established by Sh. Kartar Chand Ji in 1969 with Aim to Provide high quality surgical instruments to his customers for better results in medical line. He worked hard on the precision of instruments. Due to his personal involvement in the production he sets new standards in the quality of surgical instruments. He started the company with a low scale production, but due to his hard work, Leo Surgical Company has touched the new heights of success and now is well reknowned brand in surgical line.

In our factory we have been served by highly skilled labourers, and great combination of skilled labourers, latest technology and fortsightness of Sh. Kartar Chand Ji, we lay claim to be among the leading manufacturers of surgical instruments in the region.

In this second edition of our catalogue we hope that you will find the great variety of surgical instruments which will cover all the surgeries.
